Ratings and Comments If you think this app is useful for your project, please consider donating. If you have any feedback about this app, please contact me. Applied Arts Alterations are made in the physical environment with either sculpture, stained glass, mural, or drawings. Sculpture The emphasis of the Applied Arts program at Champlain College is to develop a professional aesthetic awareness through the exploration of sculpture. A variety of media are used to create sculptures: wood, stone, metal, and glass. The result is a well-

---

rounded sculptor with a distinctive voice and the ability to translate ideas into physical form. Stained Glass The Applied Arts program is designed to develop the student's aesthetic awareness through the exploration of stained glass. Students will be able to design, create, install, and maintain window displays. Students will work with a variety of media including glass, various metals, and other materials. Mural The Applied Arts Program provides the opportunity to create a large-scale mural, in any of a variety of media, as a living, breathing work of art. Students have the opportunity to work with the theme of the room and incorporate material, color and texture into a rich and decorative piece of art. The piece is then installed, either on the wall or in the open area of a room. The final piece can be viewed by all the students and the community as an educational/attractive display of art. Students will gain experience in the design, creation, and installation of a large scale piece of art. Students will also learn the process of creating a scale model and then building a structure around the model to create the final work of art. The final work is exhibited in the College Arts Center. Woodwork The wood work program at Champlain College is designed to develop students' abilities in design and craftsmanship through a variety of applications of the various techniques and materials utilized in the medium. Students will work with a variety of materials including wood, metal, stone, and plastic. The result is a well-rounded woodworker with the ability to translate ideas into physical form. Drawings The Applied Arts program at Champlain College is designed to develop the student's aesthetic awareness through the exploration of drawing
