Download the X-Live Registration. Download the . Fix and Update the file. Run the file or the program I am new at this please can

you tell me how to fix the xlive.dll I have tried different forums but it wont work. A: Download and Install a Program that will fix the "xlive.dll missing" error. Download and install "Xlive.dll Repair Tool", it will take care of the rest. Run the Repair Tool and follow the instructions. Instructions: Run the xlive.dll repair tool Click "Next" When the xlive.dll error disappears click "Finish" Note: Xlive.dll might not be displayed in the list, just click "Search" in the right top corner of the window. Click "Start" or "Restart" to restart the computer Close the xlive.dll repair tool and restart the computer Enjoy! Q: Apache FOP: Can I set the page-width to a specific size? Is there any way to override the page-width property in Apache FOP? A: I finally figured out how to set the page-width in the stylesheet. In fop.properties file (under Fop), you need to set `pageWidth.x.setUnit("px")`. To use a specific size
