### 1-abc.net Security Box (April-2022)

1-abc.net Security Box is a comprehensive tool for protecting private data and securing files. It integrates a password organizer, personal diary, file encrypter, file washer, backup and synchronizer to improve the overall security of your system. Activate the Password Organizer module When you start the application for the first time, you need to create an account and set a password to protect your information and to have access to all the functions. Password Organizer is a management tool for creating and organizing all your login and password data. This function generates a list with login information and also offers the possibility to delete entries. In the Functions menu, there are a few filters which can be applied for sorting the entries by date, names, logins or passwords. Save your thoughts using a password-protected digital diary Personal Diary helps you remember your ideas and save them in a secured and highly encrypted file. File Encrypter is the module to do just that and it can be used for every type of file. It also uses different encryption methods, such as AES, Caesar, Blowfish, Twofish, Simple HEX Encoder, Serpent, MARS and TEA. Create backups, synchronize data and delete unnecessary files For saving important data on external drives or other places on your system, Backup module is the tool to use. Backups can also be scheduled to run automatically. Synchronizer module compares files in different folders and copies the newest ones to both folders. It can be used on FTP servers too. File Washer is the module to use to permanently delete files from your hard drive, so they can never be recovered. Comprehensive and practical application pack In conclusion, 1-abc.net Security Box is a good way to protect your personal documents, to encrypt or permanently delete data and backup your files. The application is easy-to-use and features a user-friendly interface that is very accessible for both experienced and novice users. KEYMACRO ##### System Requirements: 1 GHz CPU, 512 MB RAM, 2 GB of disk space and 1 GB of free disk space ##### Key: 1-abc.net Security Box is a comprehensive tool for protecting private data and securing 77a5ca646e
